Product sheet Accessories

Customized windows

Shaped windows

LEIAB has accumulated a wealth of experience in manufacturing free shaped windows and doors in accordance with the customers' requirements. If you require a round window, an arched window or any shape that will enhance and complement the building's usual square frames then please contact us for a proposal.

We can supply these shaped windows with the same profiles to match the aluminium profiles on our windows and to give an added dimension we can also supply them with sash bars.

We take great pride in our attention to details and the standard of workmanship always meets with our customers' approval. We have a library of projects where our customers have expected and received shaped windows out of the ordinary so please feel free to browse.
